## GLOBALCOM Acceptable Range of Entry Codes

This document is in reference to configuring pre-recorded message actions and templates for the 528 Microphone Stations and the entry codes that are acceptable and unacceptable for these actions.

There are a few ranges that are **not** acceptable to use in configuration and these ranges are as follows:

- 0 – 9
- 1000 – 1799
- 9990 – 9999
